"I adore fine custom shades, but the old faded one in my studio is my favorite. I pin photos, articles, and reminders to it, so there's no chance of forgetting anything."

RUTHIE SOMMERS, INTERIOR DESIGNER

"The original shade on this lamp, which belonged to my grandmother, was really frumpy. I replaced it with a simple black drum. And the black and gold lining is super-chic."

GINGER BREWTON, INTERIOR DESIGNER

"This handsome cane shade really cozies up our little library."

BROOKE HUTTIG  
INTERIOR DESIGNER

"I wanted to do something fun for my mercury glass bedside lamps, so when I found a printed fuchsia silk in New Orleans, I knew it was perfect. The script design is based on antique engraved calling cards."

SARAH BLOOM  
INTERIOR DESIGNER

"This lamp was always a problem. Going up or down the stairs, you'd see directly into the shade, and the glare was blinding. Then my shade maker came up with a pleated silk cap that hides the bulb."

TODD RICHESIN, INTERIOR DESIGNER
